EDUCATION

MIT Academy of Engineering, Pune

2024 - 2028

B.Tech. - Information Technology | CGPA: 7.73 / 10

Shri shivji junior college

2024

12th Standard // HSE Board | Percentage: 65.83 / 100

Sunrise english medium school

2022

10th Standard // SSC Board | Percentage: 92.80 / 100

PROJECTS

AUTOREEL.AI | React.js, Node.js, Python, FastAPI, Google Gemini, Stability AI, RunwayML, ElevenLabs, FFmpeg

- Built a full-stack AI video generation platform that automated the entire content pipeline from script creation, voice synthesis, image generation, video assembly, subtitle generation, to one-click publishing.
- Architected an 8-stage microservice pipeline using Python and FastAPI, orchestrated by a Node.js backend with REST APIs and Socket.IO for reliable end-to-end workflow execution.
- Integrated 6 major AI services including Google Gemini, Anthropic Claude, Stability AI, RunwayML, ElevenLabs, and Whisper to power multimodal content generation across text, audio, image, and video.
- Implemented real-time WebSocket-based job tracking, enabling the React frontend to display live pipeline progress, status updates, and system events without polling.
- Developed SaaS platform features including a video library, analytics dashboard using Chart.js, system health monitoring, and automated YouTube Shorts publishing via OAuth2 and YouTube Data API v3.

Medical Store Management System | React.js, Node.js, Express.js, MongoDB, Socket.IO, Firebase

- Built a full-stack pharmacy management platform with separate dashboards for customers, admins, and delivery personnel, covering medicine ordering, prescription verification, and delivery workflow.
- Implemented real-time order tracking with Socket.IO, prescription upload via Cloudinary, secure JWT + Firebase auth, and automated email/WhatsApp notification pipelines.
- Designed role-based access control across 3 user roles with analytics and inventory reporting for the admin dashboard.

TECHNICAL SKILLS

Programming Languages: Java, C++, C, Python

Frontend: React.js, Vite, HTML5, CSS3, JavaScript (ES6+), Responsive Design, Socket.IO

Backend: Node.js, Express.js, Python, FastAPI, REST APIs, JWT Authentication, OAuth2, Microservices

Databases: MongoDB, SQLite, Firebase Firestore

AI / APIs: OpenAI, Google Gemini, Stability AI SDXL, RunwayML, ElevenLabs TTS, Cloudinary, YouTube Data API

Developer Tools: Git, GitHub, VS Code, FFmpeg, Postman

CERTIFICATIONS / ACHIEVEMENTS

Cybersecurity – Virtual Internship

June–August 2025

Cisco Networking Academy | AICTE | Skill India

Emerging Technologies (AI & Cloud) – Internship

July–August 2025

Edunet Foundation | AICTE | IBM SkillsBuild

EXTRA-CURRICULAR ACTIVITIES

- Actively building and deploying full-stack projects to strengthen real-world development and problem-solving skills.
- Exploring AI/ML tools and APIs to stay current with advances in generative AI and automation technology.
- Reading technical content and documentation to continuously improve knowledge across frontend, backend, and cloud domains.
